Critical Information Summary

Each Airtime Rate sheet contains information about the service (a description of exactly what's on offer including the minimum length of the contract and what is and is not included).

Information about pricing

The rate sheets also include the minimum monthly charges (as detailed in the monthly subscription section together with early termination fees (these simply amount to the total of the monthly subscription fees for the remainder of the minimum contract term or a pro-rata'd subscription fee for the proportion of the current calendar month used). The maximum fee for any month will be determined by the monthly subscription (charged in arrears) together with any usage fees as laid out in the rate schedule and determined by actual usage. The cost of a 2-minute call; an SMS and a Megabyte of data are clear for each plan on the rate sheet.

Other Information

Charges and usage alerts: -

1/

- a) Usage information and data;
- b) A fully itemised call data record and
- c) instructions on setting usage alerts are all available on request

2/ Minimum call durations and data flag falls; billing increments; activation and suspension fees are listed for each plan.

3/ Our satellite services extend globally, and fees remain the same from any location (i.e. no global roaming fees; regional plans excepted). In addition, the Inmarsat Fleet One airtime service plans include details of out of region charge rates (for "Coastal" plans).
